

**ORAN POLYESTER KEÇE
DIŞ TİCARET SANAYİ ve TİCARET A.Ş.**

ENVIRONMENT POLICY

Our company manufactures polyester carrier felts for the bituminous membrane producer customers with its products under ORBOND brand. It aims to ensure the health and safety of employees, customers and the people in the environment who are affected by its activities, products and services. It undertakes to protect the environment and natural life on behalf of future generations.

We are committed to continual improvement, protection of the environment and prevention of pollution from the environmental point of view, and we undertake to comply with applicable legislation and administrative regulations and with compliance obligations which may come from the customers or other interested parties, and in the light of the environmental policy adopted, to conduct works on

- Considering the environmental factor in the evaluation of the new product project and operation,
- Reducing the use of hazardous substances in production processes and researching substances that have less pollutant properties,
- Reducing, reuse, recycling and recovery of the wastes,
- Providing savings in energy, water and natural resources by productivity increase and promotion of the new technologies,
- Using recycled packaging material where appropriate,

and to allocate adequate and appropriate resources in this regard. **ORAN POLYESTER** aims to protect and improve the quality of life of its employees and customers through its environmental policy.

We believe that our employees have the motivation to implement, maintain and continuously improve our Environmental Management System, and in this regard, we expect them to make the necessary efforts, endeavors and works. As the senior management, we undertake to provide all the support and resources for the implementation of our Environmental Management System within these principles.
