# QUALITY POLICY

Our company manufactures polyester carrier felts for the bituminous membrane producer customers with its products under ORBOND brand.

Our Quality Management System is based on preventing the nonconformities. The necessary internal and external feedback channels have been established in this context. The senior management leads the quality management system and determines the vision and strategies for the future. The principles and targets used in the determination of the criteria are as follows.

- To understand and respond to the needs and expectations of all parties associated with our company.
- To produce in accordance with customer requirements, national and international standards and legal requirements.
- In the light of innovative thinking and continuous improvement principles, to carry our company's product quality and market share in the sector to the forward every period.
- To show participatory efforts as all employees to achieve and further advance the goals of our company.
- To establish customer-focused quality understanding effectively in every unit of the company.
- To identify and develop processes in an environment friendly and sustainable manner at all stages.
- To continuously improve the quality management system processes.

All of our employees are responsible for fulfilling our commitments that we have stated in this manner and fulfilling the requirements of the ISO 9001 system standards that we take as a reference.

We believe that our employees have the motivation to implement, maintain and continuously improve our Quality Management System, and in this regard, we expect them to make the necessary efforts, endeavors and works. As the senior management, we undertake to provide all the support and resources for the implementation of our Quality Management System within these principles.
